

THE CORE BODY OF KNOWLEDGE FOR GENERALIST OHS PROFESSIONALS

A project conducted by HaSPA
(Health and Safety Professionals Alliance)

**Australian OHS Education
Accreditation Board**

CONTENTS

	Title	Author	First year of publication	Current version
1	Foreword, acknowledgments Contents Synopsis of the OHS Body of Knowledge		2012	2017
2	Introduction	<i>Pam Pryor and Leo Ruschena</i>	2012	
3	The generalist OHS professional in Australia	<i>Pam Pryor and Leo Ruschena</i>	2012	
Global concepts				
4	Work	<i>Mike Rafferty and Sally Wright</i>	2012	
5	Safety	<i>Sidney Dekker</i>	2012	
6	Health	<i>Niki Ellis</i>	2012	
Technical concepts				
7	Foundation science	<i>Pam Pryor and Mike Capra</i>	2012	
8.1	Socio-political context: OHS law and regulation in Australia	<i>Liz Bluff</i>	2012	
8.2	Principles of OHS law	<i>Neil Foster, Barry Sherriff, Eric Windholtz, Richard Johnstone, Leo Ruschena</i>	2014	
9	Socio-political context: Industrial, technological and business imperatives	<i>Leo Ruschena</i>	2012	
10.1	The Organisation	<i>Andrew Hopkins, John Toohey, Dennis Else, Bob Stacy, David Borys, Susanne Tepe</i>	2012	
10.2	Organisational culture	<i>David Borys</i>	2014	
11	Systems	<i>David Borys, Steve Cowley, Susanne Tepe, Andrew Morrell, Wendy Macdonald</i>	2012	
11.3	Managing process safety	<i>Trish Kerin</i>	2017	2017
12	The Human: As a biological system	<i>Kelly Johnstone and Keith Adam</i>	2012	
13	The Human: Basic psychological principles	<i>Carlo Capponechia</i>	2012	
14	The Human: Basic principles of social interaction	<i>Bill Pappas, Carlo Capponechia and Eleanor H. Wertheim</i>	2012	
Hazards				
15	Hazard as a concept	<i>Pam Pryor</i>	2012	
16	Biomechanical hazards	<i>Robin Burgess Limerick</i>	2012	
17	Chemical hazards	<i>Dino Pisaniello and Susanne Tepe</i>	2012	
17.3	Process hazards (Chemical)	<i>Trish Kerin</i>	2017	2017
18	Biological hazards	<i>Geoff Newman-Martin</i>	2012	
19	Psychosocial hazards and occupational stress	<i>Kirsten A Way</i>	2012	
20	Psychosocial hazards: Fatigue	<i>Jessica L Paterson and Drew Dawson</i>	2012	

21	Psychosocial hazards: Bullying, aggression and violence	<i>Kirsten A Way</i>	2012	
22	Physical hazards: Noise and vibration	<i>Beno Groothof</i>	2012	
23	Physical hazards: Electricity	<i>Leo Ruschena</i>	2012	
24	Physical hazards: Ionising Radiation	<i>Martin L Ralph</i>	2012	
25	Physical hazards: Non-Ionising Radiation – Electromagnetic	<i>Leo Ruschena and Martin L Ralph</i>	2012	
26	Physical hazards: Thermal environment	<i>Ross DiCorleto</i>	2012	
27	Physical hazards: Gravitational	<i>Neil Adams and Paul Breslin</i>	2012	
28	Physical hazards: Plant	<i>Tony Payne</i>	2012	
29	Physical hazards: Mobile plant	<i>Gloria Kyriacou Morosinotto</i>	2012	
30	Physical hazards: Vehicles and occupational road use	<i>Rwth Stuckey</i>	2012	
31.1	Risk	<i>Jean Cross</i>	2012	
31.2	OHS risk and decision making	<i>Carmel Bofinger, Jan Hayes, Chris Bearman, Derek Vinert</i>	2015	
32	Models of causation: Safety	<i>Yvonne Toft, Geoff Dell, Karen K Klockner and Allison Hutton,</i>	2012	
32	Models of causation: Health determinants	<i>Wendy Macdonald</i>	2012	
34.1	Control: Prevention and intervention	<i>Leo Ruschena</i>	2012	2017
34.2	User-centred safe design approach to control	<i>Tim Horberry, Robin Burgess-Limerick, Neil Storey, Matthew Thomas, Leo Ruschena, Margaret Cook, Chad Pettitt</i>	2014	
35	Mitigation: Emergency preparedness	<i>Neville Betts</i>	2012	
36	Mitigation: Health impacts	<i>Kevin Sleigh</i>	2012	
Practice				
37	Introduction to ‘practice’ as a concept	<i>Phillip Turner</i>	2012	
38	Model of OHS practice	<i>Pam Pryor and Susanne Tepe</i>	2012	
39	The OHS professional as a ‘critical consumer’ of research	<i>Pauline Zardo and Pam Pryor</i>	2012
